

Teo Blidăruș, Co-Founder & CEO

As a co-founder and CEO of FintechOS, Teo focuses on driving the company and product strategy in full alignment with both the US and European markets, being passionate about building the future of financial technology alongside a strong ecosystem of customers, partners, and executive leaders.

Teo has been working in the financial technology industry for 25 years and led transformation initiatives in banking, insurance, and embedded finance worldwide. In fact, he has founded and scaled several companies which now serve Fortune 500 customers in 30 international markets and have increasingly higher valuations.

Teo – together with his partner Sergiu Neguț – founded FintechOS (2017), a leader in high-productivity fintech infrastructure (HPFI), helping companies across any domain rapidly launch and manage the next generation of financial products and services. FintechOS solutions also give companies the ability to engage customers across new digital channels, and to service their operations more effectively.

FintechOS deploys its technology in more than 20 markets across 4 continents and is backed by some of the most reputable VCs in Europe. The FintechOS portfolio ranges from globally strategic companies like Groupe Société Générale, Vienna Insurance Group, and Raiffeisen Bank, to game-changing players, such as Oney, eMag, and Howden.

The company employs more than 350 people in its offices in London, New York, Amsterdam, and Bucharest.
